Job Title for Posting: Oracle NetSuite Graduate Program - Associate Consultant - Technical

Division: NetSuite Global Business Unit

Location: Makati, Philippines **Start Date:** September 2021

Work Schedule: North America hours (night shift)

Company Overview

With more than 420,000 customers, and with deployments across a wide variety of industries in more than 145 countries, Oracle offers a comprehensive and fully integrated stack of cloud applications, platform services, and engineered systems. For more information about Oracle (NYSE:ORCL), visit oracle.com.

Group Overview

Oracle's acquisition of NetSuite in November 2016 brought together the reach of NetSuite's cloud ERP solutions for small to midsize businesses with the breadth and depth of Oracle's enterprise-grade cloud solutions for the back and front office. In 1998, NetSuite pioneered the Cloud Computing revolution, establishing the world's first company dedicated to delivering business applications over the Internet. Today, NetSuite provides a suite of cloud-based financials / Enterprise Resource Planning (ERP) and omnichannel commerce software that runs the business of more than 30,000 companies, organizations, and subsidiaries in more than 100 countries.

Why Oracle NetSuite

Are you motivated to launch your career in a high energy, competitive environment with a leading technology company? Let's have a conversation about how you can make an immediate impact. To start, you will be surrounded by smart, innovative, caring people who are invested in our customers and the community. If you're looking to share your unique perspective and ideas at a collaborative table and help equip all types of businesses achieve their visions, check us out.

Global Professional Services Associate Consultant Program prepares entry level candidates for an exciting and rewarding career at Oracle NetSuite. Technical Associate Consultants participate in an initial three to six-month enablement program focused on building product knowledge, consulting skills, and implementation proficiency through training and development. Technical Associate Consultants learn first—hand how to automate NetSuite to improve our customers' businesses; thereby gaining valuable scripting and consulting experience across multiple business environments before entry into the Professional Services Practice.

Your Responsibilities:

- Being a team member on customer projects
- Utilizing a structured project delivery methodology
- Understanding how to obtain customer business requirements and mapping them to NetSuite
- · Identifying and managing Gaps in customer requirements and NetSuite functionality
- Designing solutions using NetSuite functions and features
- Identifying areas to automate NetSuite to improve end user experience
- Designing and developing creative scripted solutions leveraging the powerful features of the NetSuite SuiteCloud platform
- Release management in cloud based environments
- Working and interacting with customers with their custom scripted solution in NetSuite and/or in the configuration
 of their NetSuite system
- Building successful customer relationships

Successful Technical Associate Consultants utilize the basics of programming and integrate systems to progress into technical consulting positions within the NetSuite Professional Services Organization.

Preferred Qualifications:

- Bachelor's degree in the graduating class of 2020 or 2021, preferably in Computer Science, Information Technology, Engineering or related discipline
- Basic understanding of software development lifecycle (SDLC) methodologies
- Aptitude to build web applications using Java/.NET/PHP or similar
- Understanding of system architecture, object-oriented design, web frameworks and patterns
- Experience in web technologies/standards (HTML, JavaScript), unit testing and defect management tools
- Web service integration using SOAP and REST

- Strong work and/or internship experience
- Strong business judgment and common sense
- An analytical approach to problem solving
- Initiative, creativity and a passion to deliver results that make a difference
- Excellent communication (verbal, written, and presentation) and interpersonal skills
- Ability to multi-task, prioritize and manage time effectively
- Effective when working independently and in team environments
- Receptive to feedback
- Desire to work in the technology industry with a growing company
