

C# Developer

Job Description:

In this role, you must have an excellent grasp of the C# programming language and experience with web applications. You will be working in a Linux environment to design, build, and maintain our web services and standalone applications. You will be part of our dynamic team working in an international environment.

Qualifications:

- Candidate must possess at least a Bachelor's/College Degree in Computer Science, Information Technology, Engineering (Computer/Telecommunication) or equivalent.
- 1 to 4 years solid experience in developing C# .NET solutions using the .NET framework, standards and patterns
- Strong understanding of object-oriented programming
- Experience in Linux and MySQL
- Experience working in projects
- Analytical, results oriented, dedicated and a team player
- Possess good communication and interpersonal skills; fluent in the English language
- Willing to be assigned abroad for a shorter time

We are a team of young and dynamic people who strives hard to balance work and play. We will give you the opportunity to broaden and develop your skills in a passionate, innovative and collaborative culture while working on a temporary work from home set-up. We assure you of many exciting projects with the latest technologies.
